THE BOARD OF EDUCATION

ANOTHER BATCH OF APPOINT- MENTS OF TEACHERS.

Mr. Bowen's Resolution Concern-
ing Normal Schools—Prominent
Teacher to be Disciplined.

All the members of the Board
of Education were present at yes-
terday's meeting except Mrs. Dil-
lingham.

The following appointments
recommended by the Teachers' Com-
mittee were confirmed:

W. Kia to Pahoehe.

Miss Kammerer and Miss Ab-
bie Gurney to Kailua.

Miss Bernie Cooke to Libue.

Miss Lizzie Keliinui to Kekee,
Puna.

J. W. Kealoha to Waipio, Ha-
waii.

Mrs. Davis to Pohukaina.

Miss Florence Carter to Mae-
mae.

Miss Howland to Palama.

W. A. Yeats to Honukawai.

Mrs. Martin to Waiohinu as
substitute.

E. Wingham to Honaunau.

Miss Myra Ward to Makapala.

D. Kapaewa to Keanae.

Antone do Sousa to Kaupaka-
lana as assistant.

On motion the secretary was
instructed to write to the school
agent at Hamakua and find
out when Mrs. Atwater intended
to resume teaching.

The following terms for next
school year were decided on:

First term commences Septem-
ber 6, 1897, and ends December
17; length of term fifteen weeks.

Christmas vacation of two
weeks, including Christmas and
New Year's days.

Second term commences January
2, 1898, and ends April 1. Length
of term thirteen weeks.

Vacation of one week including
Good Friday and Easter Sunday.

Third term commences April 11,
1898, and ends July 1. Length of
term twelve weeks.

Mrs. Wood's excuse for not
taking the last examinations on
account of illness was accepted.

The salaries of Miss Myra An-
gus, Mrs. Gunn, Miss Creighton
and Miss Nellie Smith were all
ordered raised in accordance with
the new classification of first-class
certificates.

Miss Margaret Nape's resigna-
tion from Makawao school was
accepted.

Heneli Peelua was appointed
an agent to grant marriage licenses
on the endorsement of the Attor-
ney General.

Mr. Bowen read an appli-
cation from a lady teacher
who stated that her landlord
had the audacity to raise the
rent of her cottage from \$4 to
\$6 which she felt unable to pay.
She had found a nice little fur-
nished cottage near by which
could be rented for \$150 a year.
If the Board would rent the
cottage for her for a year she
would even up matters by not
asking for any increase of salary
during the year. Mr. Bowen was
instructed to notify the lady that
the Board was not in the business
of advancing rent for teachers.

C. D. Pringle had a communi-
cation before the Board in which
he said he was given to under-
stand that when he was appointed
to his present position he was led
to suppose that his salary would
not be less than \$1000 a year. He
found it was only \$55 per month
and would like to be appointed to
some other position with a higher
salary. No action was taken on
the application.

Mr. Bowen then read the fol-
lowing resolution:

Inasmuch as Principal
Richards of Kamehameha Schools
has signified his willingness and
desire to have their Normal De-
partment come fully up to some
certain standard of requirements,
both as to course of study and
final examinations, such as the
Department of Education may
dictate, so that the graduates

therefrom may be fully prepared
to enter upon useful service in
the Government schools, and that
they may be upon terms of equal
advantage with graduates from the
Government Normal School.
Therefore, be it now

Resolved, First—That this de-
partment recognize the eminent
desirability of entering upon the
arrangement suggested, and that
we take immediate steps for the
final accomplishment of same.

Second—That, with a view to
securing a standard of require-
ments that may be thoroughly
satisfactory to this department,
the principal of the present Gov-
ernment Normal School and the
principal of the Normal depart-
ment of the Kamehameha Schools
be invited to the task of prepar-
ing a common standard of re-
quirements, both as to course or
courses of study and final exami-
nations, and that the results of
their work be submitted to this
department for final revision and
acceptance.

Third—That graduates from
both normal schools above named,
as also from all other normal
schools or departments that now
exist, or that may hereafter be
created, after having fully come
up to all of the requirements of
the common standard satisfactory
to this department shall be ac-
counted as upon equal advantage
and acceptance in the esteem and
service of this department.

In the discussion which follow-
ed there was some doubt as to
whether Mr. Bowen had correctly
understood Professor Richards' views
on the subject and the matter
was referred to Messrs. Bowen
and Townsend as a special com-
mittee.

Mr. Townsend then called the
attention of the Board to the
cards of some 25 teachers, mostly
Hawaiians, now holding positions
in the schools, who had failed to
pass the recent examinations.
Referred to the Teachers' Com-
mittee, which probably means that
their places will be supplied by
others with certificates.

Mr. Bowen next brought up
the matter of the publication of
Hawaii's Young People
by Principal Rosecrans of La-
hainaluna school. It now ap-
pears that Mr. Rosecrans is dis-
satisfied with his printing office
and wants a new outfit consisting
of new type, illustrating material,
paper cutter and an elaborate up-
to-date printing press. The ma-
terial outside of the press would
cost some \$400, but the press
would cost \$1000 alone. Mr.
Rosecrans could see his way to
pay the \$400 out of the proceeds
of the paper but he would have to
raise the \$1000 for the press by
voluntary subscriptions. Mr.
Bowen wanted to know what the
Board thought of going into the
printing business on a large scale.

Minister Cooper—I believe that
Lahainaluna school should be
provided for by special appropri-
ation and in my bill for the appro-
priations for the schools before the
next Legislature I intend to segre-
gate it.

Mr. Bowen—I am glad to hear
that. From what I have heard I
have been led to believe that an
impression prevailed in high quar-
ters that it would be better if the
Lahainaluna establishment was
abolished. It is possible that the
discovery of the fact that 10,000
acres of land are at stake, that by
abolishing the school the govern-
ment would lose 10,000 acres of
fine land, may have dissipated
that impression.

Minister Cooper—There has
been no such impression. Per-
sonally I was somewhat prej-
udiced against the school but I
have changed my views on learn-
ing more about it and the good
work I believe it is doing. But I
am opposed to any private soli-
citation of funds to carry on any
school or anything connected with
any school under the control of
this department. There has been
too much of this thing going on
and it must be stopped. There is
scarcely a day that people are not
around the government buildings
asking for subscriptions to some
